UCL Mentor Development programme Year 1: ELTSH Hub schedule

Guidance: Mentors should attend two in-person sessions over the year. If you are working with a new ECT, please attend one of the 'Leading ECT development' sessions first, before attending the 'Leading Practitioner Inquiry' session. If you are working with a Year 2 ECT, you might find it more helpful to attend the 'Leading Practitioner Inquiry' session first! The Mentor Collaborative study sessions are optional alternatives to doing this as independent study, drawing on UCL Extend resources
